## 05 violent delights

Jessica Burke, a snarky loner at twelve, finally sticks her neck out and it pays off big. Allied with the Steel Annex, as Jessie grows into adulthood her abilities, along with her brother's, are being channeled towards a greater purpose. Only a few know the truth about Jessica, and fewer still know about her brother, and from the nebulous shadows they direct the war and guide it towards a permanent end of hostilities.

All because of their machinations over a billion lives have been saved, but the thing that still haunts Jessica and her brother to this day is that they couldn't save their mother.

Fact is, they arranged for Nicole's untimely end.

Throughout the war everyone in the Annex watched as Jessica used their tech and flew their ships, going from one secret intel or interdiction mission to the next, and not one of them had the slightest idea what she was about. It wasn't until close to the end of the war that she finally became one of them.
